Technologies: JavaScript, TypeScript, C#, .NET MAUI, React, React Native, NextJS, SwiftUI, Storybook, Node, HTML5, CSS3, PHP, SASS, Tailwind, PostgreSQL, MySQL, Supabase, Firebase, REST APIs
Software: Figma, Adobe (Photoshop, Illustrator, Premiere Pro, After Effects), VSCode, Canva
Languages: English (Fluent), Portuguese (Fluent), Spanish (Fluent)

WORK EXPERIENCE

Software Developer - Intern **Royersford, PA**
Linque *April 2025 - Current*
- Engineered a real-time output queue view in Mobius that surfaces each active device-fix task as it runs, giving plant operators live visibility into a process that previously had no feedback and reducing status-related support requests by **65%**
- Designed and built Scheduled General Exports (Scheduled GenEx), letting non-technical users automate device data exports on custom recurring schedules, which replaced manual export pulls and saved customers **~10 hours per month**
- Architected light/dark mode and a full UI overhaul in a customer-facing .NET MAUI app

Software Engineer - Intern **Royersford, PA**
Proconex *April 2025- September 2025*
- Implemented dynamic dialogs to reduce repetitive code and streamline processes across the application, bringing total reusable dialogs to **40%**
- Built and executed Selenium test suites and regression testing workflows to ensure stability and catch issues early, resulting in less QA testing by **several hours**
- Refactored a core search feature, reducing query wait times up by up to **80%** and significantly improving overall responsiveness

Software Engineer - Frontend **Philadelphia, PA**
Impact Six, LLC *February- Current*
- Developed interactive, reusable UI components using React and Storybook, improving user experience, accessibility, and design consistency across applications.
- Integrated front-end with backend APIs (Laravel, Next.js) using TypeScript, enhancing data flow efficiency and improving overall application performance by 85%.
- Optimized state management using React App Providers, facilitating seamless feature integration and improving application scalability.
- Contributed to project stability through Git version control, managing pull requests, branch workflows, and resolving merge conflicts to maintain code integrity.

EDUCATION

Drexel University Philadelphia, PA
BS in User Experience & Interaction Design Anticipated Graduation: June 2027

PROJECTS

Moonrise - iOS Meditation App **Philadelphia, PA**
Freelance Mobile Developer for Jeff Bhasker *October 2025 - February 2026*
- Shipped a React Native (Expo) meditation app to the App Store via TestFlight and EAS deployments
- Built a native Swift/WidgetKit widget with live moon phases, plus Supabase chat and push alerts
